More than a source for your commercial building products…

A Partnership

Dear Partner,

Thank you for your continued confidence in Babcock-Davis. On behalf of the entire company, I can tell you that we are motivated and inspired from our partnership. Working with you to deliver commercial building products and services that exceed your expectations is our top priority.

For over 100 years, we have remained dedicated to building and designing the highest quality commercial building products. Our product offering and manufacturing capabilities have grown significantly over the years thanks to the quality commitment of our many hard working employees in Minnesota. We proudly stand behind every product that we ship out every day and around the world.

Sourcing commercial building products is never as simple as it seems. This is particularly true when it comes to the type of specialty and architectural building products that we supply. It takes a collaborative effort of resources and information to get the job done right. We understand all the complexities and time sensitivities involved. This is why we have built such a strong network of people and processes to better serve all of you, our partners. We do so with flexibility and nimbleness that fit your objectives—not ours.

We are excited for the future and the opportunity to work with you and to continue to exceed your expectations. You have our commitment that we will work hard every day to help you succeed.

If there is anything that we can do to improve our service to you, we will listen.

Sincerely,

Sue W. Thomas

Sue W. Thomas | CHIEF EXECUTIVE OFFICER
Architectural ACCESS DOOR

The Babcock-Davis Architectural Access Door is built with the architect in mind. Constructed with an industry-standard steel door, the updated design further improves on strength and aesthetics.

FEATURES

ANTI-FLEX FRAME Screws are inserted through our patent-pending Easy Install Tabs, firmly fitting the door to the wall without flexing the frame.

PAINLESS INSTALLATION When mounting screws are not required, quickly and easily install your new panel by bending our patent-pending Easy Install Tabs over the drywall.

OPTIONAL STAINLESS STEEL The spot free design on the face of the door gives an aesthetically pleasing appearance.

DETAILS

DOOR

Materials

B Galvannealed Steel
With primer coat. Use where corrosive resistance is required.

S Type 304 Stainless Steel
Extremely resistant to corrosion. With #4 satin polish finish.

Additional

D Double Leaf Panel
Recommended for easy access to large openings.

C Drip Cap
Directs running water away from the face of the panel.

G Gasketing
Applied to the doorstops for weather resistance. Also available with UL listed smoke seal.

L Louvered Door
Provides ventilation for special applications.

M Masonry Anchors
Attached to the frame to secure the panel when installed in masonry.

Latches + Locks

C Screwdriver Operated Cam Latch
Most common. Appropriate for standard applications.

S Security Screw – Pinned Hex Head
Highest security without a lock – requires special pinned allen wrench to open the panel.

N Knurled Knob Cam Latch
Unrestricted access – no tool required. Finger operated.

K Knurled Knob/Key Operated Latch Bolt
Patented ball bearing latch bolt operated by a screw-in type knurled knob or flush key.

D Detention Lock Preparation
For heavy-duty detention deadbolt lock. Used in maximum security applications.

L Key Operated Cam Lock
Provides an economical solution for controlled access when locks are required.

M Mortise Cylinder Lock Preparation
Matches project hardware. Accepts standard 1-1/8 inch mortise cylinder.

Finishes

- White (Standard)
- ANSI 70 Gray
- Traffic White
- High Reflectance White

Note: White is the base color, all other colors have additional charges and may require longer lead times.

Hinges

Continuous Piano H
Concealed Continuous Piano Z

Flanges

1 inch Flange
Drywall Bead
Stucco or Plaster Bead
